

CISER SPECIALS

Fasteners developed according to the requirements of your project

The Ciser Special Products line was developed to meet the specific requirements of each customer, **with items manufactured from the cold forming process**. With our technical support it is possible to develop fasteners, such as screws, nuts, bolts, bars and pins for machines, equipment and structures, **according to the strictest quality and safety standards**.

Nanotec Line

Exclusive Ciser nanoceramic coating that **resists up to 20x more corrosion** than conventional coatings on the market. In addition to high strength and durability, Nanotec **is environmentally friendly** as it does not contain Chromium VI and meets RoHS/REACH directives.

CISER QUALITY ASSURANCE

Tradition

With **65 years of tradition**, Ciser has extensive experience in serving large industries, both national and multinational, ensuring service and immediate replacement in any non-conformities. Among the segments served are **household appliances** (white and brown goods), **energy, agriculture** and **automotive**.

Delivery Guarantee

We have a dedicated team to apply the **Lean Manufacturing** and **Operational Excellence** methodology in internal processes. Our manufacturing plant has **sensors to monitor the vibration and temperature of the equipment in real time**, avoiding unexpected failures, thus reducing maintenance costs and promoting operational efficiency.
